

**ENDUREPEL™**  
**SHIELD**

**Lazar fabrics identified with the Endurepel label mean you've selected a true high performance textile.**

**These fabrics have abrasion resistance of 50,000 double rubs or more, see swatch label for specifics. Endurepel fabrics also pass Class 4 pilling tests, considered to be Heavy Duty.**

**The Endurepel Shield offers easy cleanability, stain and odor resistance while maintaining the breathability, soft hand and inherent fire retardance characteristics.**

**Cleaning fabrics that have been treated with Endurepel Shield is a breeze! Simply blot with a dry cloth and wipe clean with water. Stubborn stains can be removed by applying light pressure with a soft bristle brush and mild detergent.**
